

## Greetings

Next month actuview will be relaunched as a completely new platform, with updated navigation, a variety of additional features, and improved user services – take a look at this newsletter to get a glimpse of everything that's new and improved! In addition, we are happy to welcome new colleagues from Hong Kong and Mexico, and we have lots of new content for you. Dive in!

## The new actuview is coming – have a look

[Click here for a sneak peak](#) at the new design and functions coming in May 2021.

## Mexico and Hong Kong join actuview

We say hello to new colleagues from the Americas: In March the **Colegio Nacional de Actuarios (CONAC)** joined actuview as an institutional partner. Now more than 500 actuaries and actuarial students from Mexico can access the actuview archives and become part of the ever-growing actuview community. For more than 50 years, CONAC has represented the voice of actuaries in Mexico. Its objectives are to promote excellence in professional preparation and development, protect and develop the professional field of actuarial work, promote competitiveness, and ensure the optimal national and international reputation of the actuarial profession.

And only two weeks ago, the **Actuarial Society of Hong Kong (ASHK)** became the newest actuview partner. The society was formed in 1968 as the Actuarial Association of Hong Kong. Twenty-six years later, its successor, the Actuarial Society of Hong Kong (ASHK), was duly incorporated in January 1994. The ASHK is a membership organization for actuaries in the insurance, consultancy, and finance industries, educational institutes, and government. We are very happy to welcome more than 1,300 Hong Kong actuaries to the international actuview community!

**EAA E-CONFERENCE ON DATA SCIENCE & DATA ETHICS**

**29 JUNE 2021  
LIVE & ONLINE**

## The 6th Ulm Actuarial Day is online

With the University of Ulm and the ifa Ulm, Ulm is an internationally leading center in actuarial science and its applications with a high degree of integration of education/training, research and its application. The University of Ulm has an outstanding reputation in actuarial research. Its cooperation with ifa, a leading actuarial consulting firm, creates a stimulating interaction between the latest research and intelligent practice. Ulm offers one of the largest international education programs (bachelor's and master's degrees) in actuarial science and a comprehensive program in continuing education in actuarial science.

Now, for the sixth time, the University of Ulm and ifa Ulm will present the online event **"Ulm Actuarial Day,"** with four in-depth presentations on different actuarial science topics. Watch all four sessions now:

- **"Machine Learning: Application in Life Insurance – Modelling lapse rates using a LASSO-based approach"**, Lucas Reck (ifa Ulm)
- **"Modeling Surrender Risk in Life Insurance: Theoretical and Experimental Insight"**, Mark Kiermayer (Hochschule Ruhr West)
- **"What to Offer If Consumers Do Not Want What They Need? A Simultaneous Evaluation Approach with an Application to Retirement Savings Products"**, Benedikt Schultze (University Ulm)
- **"On the Optimal Design for a Collective Defined Contribution Fund: A Bayesian Optimization Approach"**, Fangyuan Zhang (University Ulm)

## Latest webcast from actuview partner RGA

RGA, one of the world's largest life and health reinsurers and actuview's platform sponsor, regularly publishes webcasts on current topics on actuview.

**Now online:  
"Cannabis – A New Era"**

*Presented by Hilary Henly,  
FCII (DLDU, DLDC), Global Medical Researcher, RGA*

Join Hilary Henly as she discusses current cannabis legislation around the world and how the prevalence of use is changing. She will also explain the differences between THC and CBD cannabinoids, provide some basic facts about the different types of cannabis products available on the global market, and look at how cannabis is used in medical, health and wellness, and recreational settings.

## European Actuarial Days 2021

2 June 2021—3 June 2021  
09:00-17:00 CET

Registration is open now

## Strong Partners of actuview No. 3: Institut des Actuaire

The **Institut des Actuaire** organizes and represents the actuarial profession in France. It guarantees a quality actuarial practice and compliance with the standards and professional ethics of its members. As a member of the International Actuarial Association (IAA) and the Actuarial Association of Europe (AAE), it works to improve the recognition and reputation of the actuarial profession in France and around the world.

"L'Institut des actuaire is pleased to offer all of its conferences and events on actuview", says its president Philippe Talleux. "It is an important medium that gives the entire actuarial community access to the work of the institute's members. actuview is also a way for l'Institut des actuaire to promote the French-speaking actuarial profession."

Check out the latest videos from the French actuarial association:

- **"Observatoire actuariel de la crise de la coronavirus"**, Pauline Vessely and David Dubois
- **"Les données au service d'une nouvelle expérience client : une utilisation éthique pour répondre aux exigences des assurés"**, Julien Chartier (Optimind), Toufik Gozim (GIGAMESH)
- **"L'intelligence artificielle peut-elle être éthique?"**, Blandine Chaghal (AVIVA), Gwendal Le Grand (CNIL), Fanny Pouget (Milliman), David Dubois (Institut des actuaire)
- **"Actuaries vs Virus animé par les membres du Club Algo de l'IA"**, Nathalie Ramos (GALEA ET ASSOCIES), Jean-Claude Razafindrakoto (SCOR Global Life), Victor Reutenauer (Fotonower)
- **"Changement climatique, vers un rôle proactif des assureurs sur les risques"**, Nabil Rachdi (Addactis France), Louis Perroy (Climatekos), Guillaume Rosolek (Addactis France)

## Call for proposals

Deadline  
15 May 2021

International Conference on Inclusive Insurance 2021  
Reaching scale in small countries

## New content from German actuaries

Recently the German Association of Actuaries (DAV) and the German Society for Insurance and Financial Mathematics (DGVMF) published three new videos about pensions and cyber insurance, all of which are in German:

The DAV has started a new video series, **#DAVimDialog**, to discuss current actuarial topics with social and political impact. The first issue, released in March, focuses on private pension schemes: How can private pension provision still succeed in a world without interest rates? How high should guarantees be in the future so that sufficient returns can be generated on the capital market? And how can confidence in funded pension provision be strengthened? Hermann-Josef Tenhagen, Editor-in-Chief of the consumer magazine Finanztest, and Dr. Guido Bader, Chairman of the Board of DAV, discuss these and many other issues related to private pension provision. The session is moderated by Matthias Hundt, Editor-in-Chief of procontra.

The DGVMF hosted a new edition of its traditional CPD Days for actuaries. The aim of the training days is to present complex, current actuarial topics to a broader audience. For the second time the event has taken place online, with two insightful presentations on cyber insurance from **Dr. Jürgen Reinhart** and **Gabriela Zeller**.

## Coming up next: the 3rd EAA Week

The European Actuarial Academy (EAA) was founded on 29 August 2005 by the Actuarial Associations of Germany, Switzerland, Austria, and the Netherlands to provide ongoing education for (certified) actuaries and consulting on actuarial education. Every year the Academy offers more than 20 seminars and webinars throughout Europe. The EAA strives to become the knowledge center of European actuarial education.

Beginning 26 April, the **third EAA Week** will feature one webcast on a trending actuarial topic each day:

- **"Quantifying Climate Change Risks with Solvency II – Practical Approach"**, Mario Zacharias and Daniel Teetz (Oliver Wyman)
- **"Automating Reports with R Markdown"**, Claudio Rebelo (Swiss Re)
- **"Machine Learning in Finance and Insurance"**, Dr. Christian Jonen (Generali)
- **"Solvency II 2020 – Review"**, Siegfert Baldauf (DAV)
- **"Stochastic Modeling of Mortality with Special Focus on Pandemic Risk"**, Andrew H. Dalton (Milliman)

Go to the event!

## Events by our Institutional Partner Conference of Consulting Actuaries (CCA):

We hope you enjoyed this actunews edition, and we are looking forward to seeing you soon on [www.actuview.com](http://www.actuview.com). If you have any questions or questions, please don't hesitate to contact us at all times at [contact@actuview.com](mailto:contact@actuview.com).
