### Virtual Annual Meeting of DAV and DGVFM

The 2021 Annual Meeting of the German Association of Actuaries (DAV) and the German Society for Insurance and Financial Mathematics (DGVFM) was held as a digital event at the end of April. With just over 2,000 registered attendees, this year's meeting was the largest in DAV history.

The first day included four high-class Plenary Sessions, followed by the General Assembly of the DAV. The next two days included the concurrent program of the national sections: On 29 April, the sections AFIR/ERM, LIFE, and PENSION met. On 30 April, the focus was on presentations from ADS, ASTIN, and HEALTH. Find the whole program here. Now, the recordings of the four Plenary Sessions and all presentations of the congress program are online on actuview.

Plenary Session "1st Deutschlands Rentensystem noch reformierbar?"

### Putting Human Motivation at the Heart of Digital Wellness Design

by Peter Hovard, Lead Behavioral Scientist, RGA

Peter Hovard, RGAs Lead Behavioral Scientist, shares views on behavioural challenges with digital wellness solutions, and how insurers can best engage consumers and encourage usage to drive success.

In conjunction with Peter Hovard's video, RGA/RGAX highlights the value of wellness solutions to motivate healthy lifestyles. Its Global Wellness Survey Report illustrates how wellness solutions can drive consumer engagement, improve health outcomes for policyholders, and support chronic disease management and improved mental health treatment to reduce claims.
